

Getting Started with Discord

Start out on the right foot (not the left one!)

GETTING THE APP

You can download Discord for free on desktop or through Android, iOS, and iPad OS on mobile and tablets.

1

GETTING STARTED ON MOBILE

If this is your first time creating a Discord account on your Android, iOS, or iPadOS device, this will help walk through the steps of creating your account and getting connected.

2

JOINING A SERVER

A server is like a giant tree house – each channel within a server represents another room within your tree house that you can use to chat with others via text, voice, or video.

3

SENDING MESSAGES

Whether you want to send a message, post a meme, or even add attachments (like images, videos, or other files), it's easy through Discord!

4

COMPLETE BEGINNER'S GUIDE

5

Are you a “read-all-the-instructions-before-opening-the-box” type of person? Maybe you just want to have all info handy just in case. Either way, here is the comprehensive beginner's guide to Discord!
